## EDUCATION

B.TECH (Computer Science)	2021-2025	CUTM, Paralakhemundi, Odisha	8.7
---------------------------	-----------	------------------------------	-----

## PROJECT

**SafetyNet** — *Web Application* | [Link](#) | React js | SpringBoot | MySQL | Twilio

- An interactive Map Shows real-time alert locations and incident details using React Leaflet.
- Users receive immediate notifications of nearby alerts by using Twilio.
- Customized Alerts Users set alert types and areas of interest.

**Smart IrriGreen** — Blynk | Node MCU | Arduino

- Control and monitor the irrigation system in real time through the Blynk app.
- NodeMCU with Arduino automated watering schedules based on soil moisture levels.
- Receive alerts and updates on water usage and system status via the Blynk.

**Pinfluence** — *Website* | [Link](#) | EJS | Express js | Tailwind CSS | Multer

- Implemented a secure user authentication and registration system using Express js.
- Enabled users to create, organize, and manage themed boards for their pins using Multer.
- Designed a user-friendly interface that is fully responsive across various devices.

## TECHNICAL SKILLS

Javascript, Java, C++	ReactJs, Tailwind CSS, Express js	MySQL, MongoDB	Git, VSCode
-----------------------	-----------------------------------	----------------	-------------

## ACADEMIC ACHIEVEMENTS AND AWARDS

- We have achieved a top 5 position in the WOW Project Hackathon, a prestigious college hackathon.
- Achieved Gold Badge in C++ on HackerRank.
- Solved 25+ leetcode Questions.

## EXTRA-CURRICULAR ACTIVITIES AND ACHIEVEMENTS

- Web Development Bootcamp Certification by Udemy
- Proficient in multiple languages, showcasing linguistics.

## COURSE WORK

- Operating System
- Computer Networking
- Data Structures and Algorithm
- Database Management
- IoT Automation
- Android Development
